COVID-19 Update

Elaine Dotten, Infection Control Nurse

Hello Oak Hammock community,

As of today, we have six positive cases of COVID-19 among two Independent Living staff members and four IL residents. All positive team members are isolating off-site. We have zero known cases within the Health Pavilion.

For the most up-to-date respiratory illness protocols, including information about testing, reporting and what to do if you are experiencing symptoms, visit the COVID-19 module on Touchtown. Now that case counts are below 10 for two consecutive weeks, we will discontinue the weekly updates.

In the meantime, if you have any questions or concerns, please contact me at edotten@oakhammock.org or 352-548-1137.

Sincerely,

Elaine Dotten
